### WELCOME !

We have to wake up early in the morning. We are going to visit the "Laguna del Oso", and whether it is spring, we could see the great variety of birds that inhabit it.. Once we had lunch we go back in time and visit the houses and fortifications of our ancestors The Vettones . We again make a leap in time and visit one of our villages that, though living in the 21st century, keeps the flavor of its origins.

How beautiful are the Walls and the Palaces! What to say about its Romanesque Churches!. And the flowing "smell" to Mysticism and to Teresa ! All that and more we are going to live in this day that will be forever remembered.

The afternoon is to enjoy shopping or doing sports at The Almarza Golf Resort ,or relaxing in our spa (extra)

Ávila is not just granitic stone, Middle Age and Christians. There also were a moorish population who, with poorer materials (plaster and brick) created their own and unique style: THE MUDEJAR.

Does it sound known to you?

Today we are going to know the heart of this architectural style. Free afternoon with options (see Day 3)

We have visited Ávila's City and La Moraña (Land of the Moors). We have to approach to its mountains. The Sierra de Gredos. Its northern side is one of the most beautiful and wildest. People living on it preserve the flavor of the Middle Age Repopulation and feudal lords. We return along the same way followed by Roman Army when made and used his famous Causeway, exploited for centuries by moving cattle. Finally we are going to see the walled city from its most famous balcony: Los Cuatro Postes.

We hope you keep a great memory of the diversity of cities, landscapes and people living in these lands, who always will welcome you with open arms.

### BE WELCOME ¡

After breakfast we are going to The Almarza Golf Resort, in Sanchidrián, where we are going to enjoy a magnificent 18-holes course. In some of them you will believe to be playing in Scotland, then what better than a good lunch, a nap and a relaxing visit to the surrounding countryside.

Did you know that we are on a huge aquifer? .

Today we are going to make a break in our party, a visit to the City is required: its Walls, the Cathedral, its palaces, its Romanesque, that mystical air, almost esoteric, fatalistic, that appears to float in the air. Neither Miguel Delibes nor Henry R. Larreta, could set a better place for their novels. Unamuno rightly named it "La Ciudad Murada"

We return to the La Almarza's Golf Resort to practice our favourite sport: "GOLF" in capital letters. But then we have no choice but to pay homage to our ancestors. Those ancient people that, back in the 7th century BC, came from Central Europe to settle in these lands and who were one of the first drops that formed our Celtic blood

How could we forget our Sierra? The Gredos System  
 Its landscapes and its people, its fauna and flora.

The dark grey summits..

The Power of Nobility. The case against the neighbour. ...

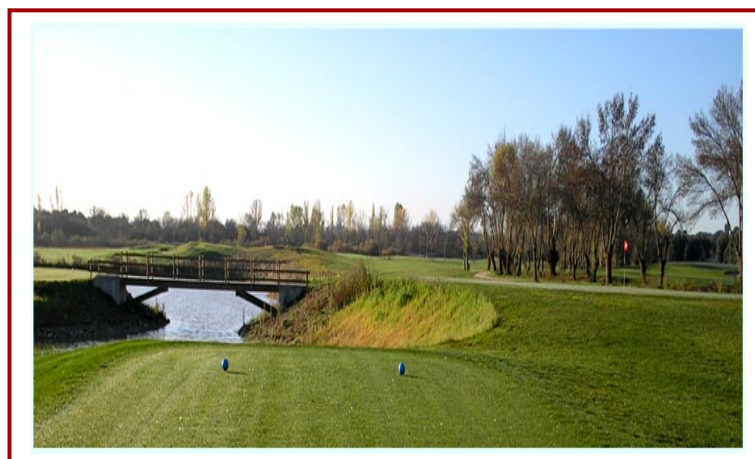

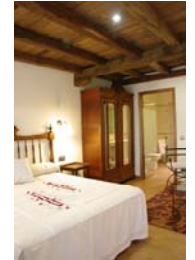

The Ecclesial Institution.....

We'll visit one of the most beautiful and wildest landscapes in Spain

Every good thing has an ending.

WE WISH YOU A PLEASANT RETURN HOME

AND, OF COURSE, HOPE TO SEE YOU SOON
